

SECONDARY DIGITAL LITERACY & COMPUTER SCIENCE PROFESSIONAL LEARNING GROUP

TEACHERS: Have you been tasked with teaching digital literacy or computer science courses at your school? Are you looking for strategies, best practices, and support for teaching these classes? Then this is the professional learning group for you!

ADMINISTRATORS: Do your teachers need ideas for addressing the new Digital Literacy and Computer Science Course of Study in their lessons? Do you need to know what this new DLCS looks like in the classroom? **Then this is the professional learning group to which you should send your teachers!**

The Secondary (6-12) Digital Literacy and Computer Science Professional Learning Group is a sustained professional development offering (3 meetings – 1 Fall, 2 Spring) in which teachers will learn:

- *Practical strategies for teaching computer science concepts such as computational thinking and coding.*
- *How to find and evaluate tools and resources you need in order to both teach and learn with your students.*
- *Approaches to assessment and project-based assignments that solve authentic problems.*
- *How to engage students as producers and not merely consumers of digital tools and technology.*
- *And before you ask, yes, there will be robots, drones, unplugged activities, and more!*

Meeting Dates

Tuesday, November 12, 2019
Thursday, January 23, 2020
Wednesday, February 26, 2020

Registration Information

Deadline: Friday, October 11, 2020
Application Form & More Details:
